President's Desk...

Welcome all amateur radio operators and enthusiasts. It's almost March (& may be March when you read this) and the first quarter is almost gone.

How time flies. It's coming into springtime and maybe some bad weather. Are you prepared? Now is the time to check your go boxes, go packs or your emergency kit to make sure it is ready to go.

This year 2004 looks like a year of change for the Amateur Radio Service, from new licenses to BPL.

I'm sure everyone has an opinion on every topic. That is great. That's what I like about the good old U.S.A.

We can sit down and talk about opinions and then go have a beer or coffee. This year is an election year and the mud seems to be flying. I know whom I'll vote for, and if you disagree that's fine don't vote. (just kidding)

Seriously, the best way to be heard is to vote. Every American should not leave it to the next guy. You may not like what was voted on. I guess the best phrase about the whole situation is, "If you don't vote don't complain."

Now let's get out there and operate the radio!

Are you having fun yet?

Have you been to the Richards Middle School Radio Club meeting?

Have you been to a Crew 73 Meeting?

Have you been radioactive this month?

What are you doing to advance the Service?

Are you enjoying making those kits and then using them?

Are you making antennas?

What about helping N1TWX with the classes?

What is your passion about Amateur Radio?

Those are some questions that you should be answering. There are a lot of things to do. We have an excellent executive committee and they are trying to provide you an opportunity for some of these things this year. Our program chairman, wb4qdx is busy getting things lined up for us. We do need to fill a few positions before to long. Let's go over the executive committee and the committee chairman now.

(Continued on page 2)

The GARZETTE

The GARZETTE is the official monthly organ of the Gwinnett Amateur Radio Society serving its members and other persons interested in the advancement of the amateur radio art.

Original articles, art, and photos are invited and encouraged. Previously copyrighted submissions cannot be accepted for reprinting unless permission from the appropriate publisher is provided in writing along with the information being submitted. If reprints are from publications allowing their unrestricted use, please include a copy of the printed permission contained in the publication.

If possible, bring your articles to the monthly meeting in Microsoft Word or rich text or text or HTML format or by email to k4bet@arrl.net. Artwork can be accepted in most any graphics format and can be submitted via email to the same address. Alternate means of submittal can be arranged when necessary.

In keeping with the amateur radio spirit, permission is hereby granted for the reproduction of *The GARZETTE* articles by other amateur radio club newsletters provided that proper credit is given to the individual author and *The GARZETTE*.

The GARZETTE is published each month with the assistance of Hal Manning, who prints the news letter. Rick Patchin, KD4RFK doing the final production work on The GARZETTE by folding & labeling. John A. Davis, WB4QDX, stamps and gets the end product to the Post Office each month. Paul McInnish, K4BET, provides email delivery. Many thanks to each of them and all article contributors.

Deadline for submissions is the 20th of each month for inclusion in the following month's issue.

For any additional information contact:

CLUB CALENDAR

- GARS Monthly club meeting is the 2nd Tuesday of the month at 7:30 PM. We meet at the First United Methodist Church in Lawrenceville.
- GARS Monthly exec meeting is the 2nd Tuesday of the month at 6:30 PM. We meet at the First United Methodist Church in Lawrenceville. Anyone interested is welcome to attend.
- Every Monday at 8 PM local time: GARS Want, Swap, Sell, and Information Net on the GARS 2 meter repeater
- Every Thursday at 8 PM local time: GARS CW Practice Net with WE5O
- Every Wednesday at 9 PM local time: GARS 6 meter net on the GARS 6 meter repeater
- Every Saturday at 8AM local time: GARS Weekly Family Breakfast, Golden Corral Restaurant, Riverside Drive, Lawrenceville
- 20th of each month: Deadline for submittal of articles for the following month's GARZETTE

Executive Committee Meeting

All interested individuals are invited and encouraged to attend the monthly Executive Committee Meeting. Presently, these gatherings occur one hour in advance of the regular Club Meeting. The location is in a classroom immediately near the Club meeting space.

Several years ago these Executive Committee meetings were instituted for the purpose of saving more time in our Club meetings for "radio talk" verses the business of the Club. To that end, they have been successful. However, some members enjoy ALL aspects of the Club, and as such, are encouraged to come, participate, share insights and opinions! We will all be benefited by the sharing of ideas & experience.

For the latest Club news, visit the GARS Website at:

www.gars.org

CONTEST SCHEDULE

March 6-7 ARRL International DX Contest (Phone) Rules

June 12-14 ARRL June VHF QSO Party

June 19 Kid's Day Rules

June 26-27 ARRL Field Day Rules

July 10-11 IARU HF World Championships

August 7-8 ARRL UHF Contest

August 21-22 ARRL 10 GHz and Up Contest

GARS Elmers

Many of us Hams got interested in the hobby (service) as a result of some influence an experienced Ham had on us. The GARS organization is blessed with a lot of talented members that are willing to share their knowledge. The following list is made up of those individuals willing to serve as Elmers. Hopefully, this list will grow, and in time, maybe we'll get more who are willing to add a particular area of expertise.

KF4KSE David Moon (770) 279-9924
mobile radio installation

KG4IUM Andrea Hartlage (770) 963-2715
making QSL cards

KG4FXG, Bill Carter, (770) 339-4531
Mobile CW

WA4DYD, Stan Edwards (770) 923-8770
Emergency Communications

GENERAL INFORMATION:

WE5O Ron Langston (770) 569-8354

N1TWX Win Jackson (404) 869-1347

W4WKP Johnnie Fearon (770) 207-0020

WB2YAD Duane Reynolds

WB9JSW, Carl Plotz

K4MJK Mike Kovak

K4CB Carter Bennett (770) 923-5446

W4ADE Ade Wirth (770) 614-3743

K4HBI Mike Swiderski (770) 449-0369

W8KJM, Barney Barnes (APRS)

If you'd like to be a GARS Elmer, please email the editor of the Garzette: k4bet@arrl.net or call 770-237-2364

GARS MEETING MINUTES**February 10th 2004**

GARS President Carl Plotz opened meeting at 19:35.

Introduction of Officers and Committee Chairmen

Introduction of Members

Rich – Relocating to Salt Lake City, UT. Discussed duties of Garzette Editor

Paul – K4BET – Recently had knee surgery – doing better

Steve – WB2OGY – Scheduled for back surgery on 2/11

Carl reviewed Scholarship Plan during meeting. Membership had several questions that need to be answered prior to approval.

Annual Club Elections

David – KA4KKF elected as President by acclimation

Earl- AF4FG elected Vice-President by acclimation

Dan – KF4YSU elected Treasurer by acclimation

Ken – KI4BQS elected Secretary by Acclimation

John – WB4QDX elected Activities Manager by Acclimation

Treasures Report –

No unusual spending

Dan announced that he is also Apparel Chairman. See him if interested in purchasing logo items.

Program – CW Traffic Nets

Meeting adjourned at 20:50

Submitted by:

J. Morgan Ringold, KG4PAN

GARS Club Secretary

LINUX pronounced as lee-nux. This month's QST has a very good article on Mandrake Linux 9.2. It is under Digital Dimensions page 92.

If you are interested in using an OS other than Microsoft windows, you should check this out. I have downloaded the images if you want to use them. There is more to computing than windows. 73,

David, KA4KKF

Ed note: Hmmm, I even heard of another operating system... "MAC"?

March Club Presentation

Club member Stan Edwards—**WA4DYD**, will give us a presentation on the Amateur Radio Emergency Service (ARES). Stan serves as the Gwinnett County ARES Director. Gwinnett County (ARES) is a model of organization and cooperation between Amateur Radio and local government.

Member Spotlight

Editors Note - At the November 2003 GARS Club meeting, it was proposed that a couple of our members would be selected each month and asked to write a small feature spot for the Garzette. The writers could introduce themselves to the Club or select any topic germane to our Amateur Radio interests. This is strictly voluntary; no pressure will be applied! Just have fun with it. Send it to the editor: Paul McInnish, K4BET, k4bet@arrl.net (Yep, with pictures)

17 REASONS TO JOIN THE GWINNETT AMATEUR RADIO SOCIETY

1. Have fun and meet people who share your interest in the various aspects of the radio art - amateur radio, scanning, shortwave listening, amateur television
2. Join those who have a wide and deep experience with amateur radio, who will make you feel welcome and happily share their knowledge with you
3. Join a local Gwinnett County based organization, the Gwinnett Amateur Radio Society (GARS)
4. GARS is the largest and most active amateur radio club in the Atlanta area. There are always lots of activities going on
5. GARS offers ham radio license classes so you can expand, or share, your knowledge of radio. GARS also conducts an annual Tech Fest where you can learn or share a special segment of radio
6. GARS serves its local community and provides a way for you to do so using your interest in radio
7. GARS does the most public service activities of all radio clubs in the Atlanta area, providing radio coordination of public events - the March of Dimes Walkathon, The Dacula Parade, Special Olympics, the Buford 5K run, to name a few
8. GARS demonstrates its commitment and readiness to help its community during emergencies by conducting its annual Field Day event in which it sets up multiple emergency communications paths and establishes contacts across the United States and worldwide for twenty four hours continuously, without commercial power. Join in this event to develop and demonstrate your skills
9. GARS supports the Gwinnett County Amateur Radio Emergency Services (ARES) with its facilities, members and knowledge to provide back up communications services to Gwinnett County and state government departments during emergencies and disasters
10. GARS serves its community with its repeater systems on 6 meters, two meters and 70 centimeters. These facilities have been used during emergencies such as tornadoes (1998, 2000) to help its community as well as to provide common communication facilities for area amateur operators
11. GARS conducts radio demonstrations at local movie theaters and other public facilities where you can participate to develop and demonstrate your own radio skills
12. GARS keeps their members informed on club and radio matters with its GARZETTE newsletter which has been recognized as one of the top three radio club newsletters in the nation
13. GARS has its own, constantly updated web site dedicated to amateur radio and club activities (<http://www.gars.org>) to keep you informed
14. GARS provides education and training for local Boy Scout organizations
15. GARS provides young people the opportunity to build their life skills and knowledge, both technical and human, with community serving activities utilizing their interest in radio
16. GARS has weekly family breakfasts at a local restaurant for members to share fellowship and common interests
17. GARS conducts a weekly Swap, Sell and Information Net where you can obtain radio items and information

Attention All Amateurs...

ARRL Web Page - www.arrl.org

FEMA to FCC: BPL will "Severely Impair" Mission-Essential HF Operations (Dec 8, 2003) -- Expressing "grave concerns" about likely interference from unlicensed Broadband over Power Line (BPL) systems, the Federal Emergency Management Agency (FEMA) has told the FCC that BPL could "severely impair FEMA's mission-essential HF radio operations in areas serviced by BPL technology."

FEMA filed comments December 4 in response to last April's FCC BPL *Notice of Inquiry*, ET Docket 03-104. FEMA expressed primary concern over BPL's potential impact on the FEMA National Radio System (FNARS), which operates on HF and serves as the agency's primary command and control backup medium as part of the Federal Response Plan. BPL also could render such "essential communications services" as the Radio Amateur Civil Emergency Service (RACES), the Military Affiliate Radio System (MARS) and the Civil Air Patrol (CAP) useless, FEMA said. FEMA and ARRL last year signed a *Memorandum of Understanding* that focuses on how Amateur Radio personnel may coordinate with the agency to support emergency communications functions.

Editors note: *This is being repeated because it is felt this will seriously & dramatically affect low frequency amateur communications; the editor has had the opportunity to witness AND listen to the severe amount of QRM & QRN this technology will bring about! Send your setters, we have got to stop this .*

GARS Apparel

Several items of clothing that feature our Club logo and/or your callsign are available to Club members. These items include polo shirts, sweat shirts, caps, jackets and other articles. Callsign badges can also be ordered. See Dan Keohan, **KF4YSU**, at the next Club meeting for a listing of items and their associated costs.

Contact a Club officer if you have a suggestion for an upcoming Club meeting speaker or topic.

Here is a funny:

GREAT TRUTHS THAT LITTLE CHILDREN HAVE LEARNED:

- 1) No matter how hard you try, you can't baptize cats.
- 2) When your Mom is mad at your Dad, don't let her brush your hair.
- 3) If your sister hits you, don't hit her back. They always catch the second person.
- 4) Never ask your 3-year old brother to hold a tomato.
- 5) You can't trust dogs to watch your food.
- 6) Don't sneeze when someone is cutting your hair.
- 7) Never hold a Dust-Buster and a cat at the same time.
- 8) You can't hide a piece of broccoli in a glass of milk.
- 9) Don't wear red polka-dot underwear under white shorts.
- 10) The best place to be when you're sad is Grandpa's lap.

A NEW DIGITAL MODE! DOMINO!

domino is a simple Amateur Radio mode for keyboard QSO's. **domino** provides digital chat-mode operation on the HF bands, using the well respected sound card technique.

Use *any* SSB transmitter, even an old "steam radio" type.

- simple QSO mode with limited file transfer capability -
- typing speed 30 to 60 WPM, low bandwidth -
- linear transmitter not required -
- incredible tuning tolerance -

domino will handle TX/RX offsets and mistuning of 200Hz with ease, and will provide perfect copy of drifting signals up to 200Hz/minute! It also has excellent multi-path performance.

Three **domino** modes offered. Choose the one you need for the prevailing conditions:

Mode	Baud	Bandwidth	Tones	Speed
domino8	7.8125	158Hz	16	31 WPM
domino11	11.025	223Hz	16	44 WPM
domino16	15.625	316Hz	16	62 WPM

domino is an *MFSK* mode, sensitive, immune to interference and ionospheric effects. Several new techniques - interleaved multiple tone sets, incremental coding and others - make **domino** easy to use, easy to tune, and ideal for beginners.

- very quick to tune -
- needs no error correction -
- faster sync than other modes -
- designed for slick QSO exchanges -

The signal sounds rather like MFSK16, but has an unusual "falling" sound to the tones. Instead of a single tone during idle, there is a falling staircase that is quite distinctive, both to the ear, and on the waterfall. If you are on the wrong sideband, there is a "rising" sound instead.

More information can be seen on this web page (or do a Google search).

<http://www.qsl.net/z11bpu/MFSK/domino/>

Ed note: A TNX to our President, David Adcock, KA4KKF for this interesting note on a new technology!
